

OWN A PIECE OF **THE FUTURE**

Solar Investment Scheme with Long-Term
High Returns on Equity

**Invest ₹60-65 Lakhs/MW and potentially earn an estimated
17-18% Return on Equity (ROE) over 25 years.**

Secure your financial future through a sustainable, government-supported program.

Participate in Gujarat's DREBP scheme , designed to promote renewable energy through investor-backed solar installations.

- **Sell Solar Power Directly to the Government:** Secure a 25-year Power Purchase Agreement (PPA) with the government, ensuring guaranteed returns.
- **Fixed Tariff:** Receive a guaranteed rate of ₹2.76 per unit for the entire PPA term.
- **Accelerated Depreciation Benefits:** High tax-payers enjoy accelerated depreciation at a 40:40:20 structure. (@ 2.48 Rupees per unit)
- **Flexible Investment Range:** Options available from 500 kWp to 5 MWp capacities, allocated on a first-come, first-served basis with no tender process.
- **Hassle-Free Investment:** No hidden fees, charges, or losses, making this an efficient and low-risk opportunity.
- **Capacity Allocation:** Will be on a first-come, first-served basis with no tender participation required.

Potential Returns

Initial investment of ₹60-65 Lakhs can potentially yield:

- **Approx 8-9% Return on Equity in the first 12 years till the bank payments going on**
- **Approx 45% (on an average ROE) from 13th to 25th year**

(Considering one year moratorium and 11 year EMI)
